

Safety Data Sheet

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product Name: Eyelash Tint Black Group I
Product Code: SPE7500

Application of the mixture: Peroxide-containing product or mixture: neutralisers, tint developers

CAS No: tint Solution

Company Name and Address:

Bellitas Ltd,
Unit 12 Prospect Drive,
Britannia Enterprise Park,
Lichfield,
Staffs.
WS14 9UX

Emergency Telephone No: +44 (0) 1543 416611

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Classification according to EC 1272/2008
Product is not Hazardous, nor classified under EC1272/2008

The full text for all Risk Phrases and Hazard Statements are displayed in section 16

2.2 Label Elements

Signal word: None

Hazard Statements:

Product is not Hazardous, nor classified under EC1272/2008

This product may cause an allergic reaction. Patch testing should be completed prior to the first treatment and re-tested after any lapse of treatment longer than three months.

Precautionary Statements:

P402+404: Store in a dry place. Store in a closed container.
P410+403: Protect from sunlight. Store in a well-ventilated place.

SECTION 3: Composition/information on ingredients

3.1 Substances

Not applicable – product is a mixture

3.2 Mixtures/Ingredients

Aqua (Water), Cetearyl Alcohol, p-Phenylenediamine, Sodium Cetearyl Sulfate, Sodium Laureth Sulfate, m-Aminophenol, Resorcinol, 2,4-Diaminophenoxyethanol, CI 77499

| Name/Form. | CAS / EC No. | Concentration | Classification |
|----------------|--|---------------|--------------------------------|
| n/a | tint Solution | n/a | Product has no classifications |
| Main Active(s) | p-Phenylenediamine, Sodium Cetearyl Sulfate, m-Aminophenol, Resorcinol, 2,4-Diaminophenoxyethanol. | | |

The full text for all R-Phrases and Hazard Statements are displayed in section 16

Safety Data Sheet

SECTION 4: First aid measures

4.1 Description of first aid measures

| | |
|-----------------------------|--|
| Inhalation | This product does not contain any volatile substances. |
| Skin Contact | Wash well with water; if irritation persists seek medical advice |
| Eye Contact | Wash well with water; if irritation persists seek medical advice. |
| Accidental Ingestion | Do not induce vomiting, drink copious amounts of water. Seek medical help. |

4.2 Most important symptoms and effects, both acute and delayed

| | |
|---------------------|---|
| Inhalation | Symptoms unlikely from small amounts, but inhalation of large amounts may cause headaches, dizziness, unconsciousness |
| Skin Contact | Prolonged skin contact may cause drying of the skin. |
| Eye Contact | If liquid gets into the eyes it may cause redness, stinging, watering of the eye. |
| Ingestion | Ingestion of the liquid may cause irritation to the throat and mouth, and symptoms similar to inhalation |

4.3 Indication of any immediate and any special treatment needed

| | |
|--------------------------------------|-----------------------------------|
| Immediate / special treatment | Symptomatic treatment as required |
|--------------------------------------|-----------------------------------|

SECTION 5: Firefighting measures

5.1 Extinguishing media

| | |
|---------------|--|
| Use: | Not flammable, extinguishing not required. |
| Avoid: | Spread of leaking liquid or powder. |

5.2 Special Hazards arising from the substance or mixture

No immediate fire hazard.
No vapours likely from this product.
No toxic gases emitted from this product.

5.3 Advice for firefighters

Wear suitable gloves for clear up.
Breathing apparatus only required if pungent smell exists.
Do not allow solutions to run off into drains.

Additional information

None.

SECTION 6: Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Avoid contact with skin and eyes. Wear gloves when handling spillages.
Wear protective equipment. Keep unprotected personal away.

6.2 Environmental precautions

Avoid spreading of the material. Contain spillages with sand, earth or suitable inert absorbent material. Prevent further spillages.
Do not allow to penetrate the ground/soil, enter drains or water courses. Cover drains. In the case of contamination of water courses or sewers advise the Environmental Agency, fire brigade and police.

6.3 Methods and materials for containment and cleaning up

Absorb with liquid binding material, vermiculite, sand, earth or suitable inert absorbent material.
Rinse site with copious amounts of water, which should not be allowed into drains, sewers or watercourses
Ensure adequate ventilation

6.4 Reference to other sections

See section 7 for information on safe handling
See section 8 for information on protective equipment
See section 13 for disposal information

Safety Data Sheet

SECTION 7: Handling and storage

7.1 Precautions for safe handling

Avoid ingestion. Minimise personal exposure to the product.
Ensure good interior ventilation.

7.2 Conditions for safe storage, including any incompatibilities

Storage

Store in a cool, dry place in full tightly sealed containers. Keep away from possible sources of combustion.

Incompatibilities

Store away from oxidising agents.
Store away from alkalis (caustic solution).
Store away from acids.

7.3 Specific end use(s)

No special precautions.

SECTION 8: Exposure controls/personal protection

8.1 Control parameters

Workplace exposure limits

| Name | Std | TWA 8 hour exposure limit | STEL 15 minute exposure limit | Source/Type |
|------------------|-----|---------------------------|-------------------------------|------------------|
| DNELS | | | | |
| Human oral | | Worker | | Consumer |
| Human dermal | | Systemic affects | | Systemic effects |
| Human inhalation | | none stated | | |
| Human inhalation | | | | |

PNECS

PNEC Aqua (Freshwater)
PNEC Aqua (Marine)
PNEC Sediment
PNEC Soil

8.2 Exposure controls

| | |
|-------------------------------------|---|
| Engineering measures | Provide eyewash station. |
| Respiratory protection | If ventilation is insufficient suitable respiratory equipment must be provided. |
| Hand protection | For prolonged contact with the product, suitable protective gloves conforming to EN374 should be worn. Seek recommendations from manufacturer or supplier. |
| Eye protection | Contact lenses should not be worn when working with this chemical. Wear approved safety goggles. |
| Skin protection | Minimise all forms of skin contact. Wash promptly if skin becomes contaminated. Wear suitable protective clothing. Promptly remove non-impervious clothing that becomes contaminated. Launder overalls and under garments regularly. When using do not eat, drink or smoke. |
| Other protective & hygiene measures | Keep away from foodstuffs, beverages and feed. Wash hands before breaks and at the end of work. |

SECTION 9: Physical and chemical properties

9.1 Information on the basic physical and chemical properties

| | |
|--|---------------------------|
| Appearance | Mobile liquid |
| Odour | Pungent peroxide smell. |
| Odour threshold | Not determined |
| pH value | pH 2.5 - 3.5 |
| Solubility in water | Soluble in water |
| Initial boiling point/boiling range °C | 108°C (hydrogen peroxide) |
| Melting Point / range °C | None specified |
| Flash point °C | Not flammable |
| Upper/lower flammability limits | Typically 2-12% |
| Vapour pressure at 20°C | None specified |
| Vapour density at 20°C | 1 |
| Auto ignition temperature °C | None specified |
| Alcohol content | None |
| Specific gravity | 1.00 approx. |
| Viscosity at 20°C | Mobile liquid |

9.2 Other information

None

Safety Data Sheet

SECTION 10: Stability and reactivity

10.1 Reactivity

Not considered to be reactive

10.2 Chemical stability

Stable under normal conditions and storage. See section 7

10.3 Possibility of hazardous reactions

Thermal or chemical breakdown will result in the release of oxygen.

10.4 Conditions to avoid

High temperatures, flames and other sources of ignition.

10.5 Incompatible materials

Strong oxidising agents, strong acids, strong alkalis.

10.6 Hazardous decomposition products

Thermal decomposition or combustion may include oxides of carbon or nitrogen.

SECTION 11: Toxicological information

11.1 Information on toxicological effects

This product has not been tested. Judgements on the expected toxicity of this product have been made based upon consideration of its major components.

Acute toxicity This product has not been subjected to toxicity testing.

Inhalation In high concentrations vapours may cause headache, fatigue, dizziness and nausea

Skin contact Prolonged and frequent exposure may cause skin dryness and cracking

Ingestion Gastrointestinal symptoms, including upset stomach

Eye contact Irritating to the eyes

Comments This product has been assessed as safe to use under normal conditions of use and according to instructions.

SECTION 12: Ecological information

This product has not been subjected to toxicological testing. Judgements on the expected toxicity of this product have been made based upon consideration of its major components.

This product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment

12.1 Toxicity

Toxicity to fish 37mg/l (hydrogen peroxide)

Toxicity to invertebrates No data available

Toxicity to algae 1.38 mg/l (hydrogen peroxide)

12.2 Persistence and degradability

Readily biodegradable.

12.3 Bioaccumulation

There is no evidence of bio accumulative.

12.4 Mobility in soil

No further relevant information available

12.5 Results of PBT and vPvB assessment

Not applicable

12.6 Other adverse effects

No further relevant information available

SECTION 13: Disposal considerations

Do allow the product to reach the sewerage system or waterways.
Empty containers may contain residual product with pungent vapour.

Safety Data Sheet

SECTION 14: Transport information

14.1 UN number

UN No. (ADR/RID/IMDG/IATA)

No

14.2 UN proper shipping name

Not applicable

14.3 Transport hazard class(es)

ADR, IMDG, IATA

None

None

14.4 Packing group

None (ADR/RID/AND/IMDG/ICAO,IATA)

14.5 Environmental hazards

Marine pollutant

None

14.6 Special precautions for user

Danger code (Kemlar)/hazard no. (ADR)

None

EMS no.

None

Tunnel restriction code

None

14.7 Transport in bulk according to annex II of Marpol and the IBC Code

Not applicable

14.8 Additional information

Limited quantities (LQ)

None Litre(s)

EC N°

SECTION 15: Regulatory information

15.1 Safety, health and environment regulations/legislation specific for the substance or mixture

All components are listed as existing substances in Europe

15.2 Chemical safety assessment

A chemical safety assessment has not been carried out for this product.

SECTION 16: Other information

Classification of the mixture is in general based on calculation method using substance data, as required by (EC) 1272/2008

Abbreviations and acronyms used in the safety data sheet

| | |
|------------|---|
| CAS No | Chemical Abstracts Service number |
| DNEL | Derived No-Effect Level |
| EC | European Community |
| EEC | European Economic Community |
| EMS No | Emergency Response Procedure number |
| Eye Irrit. | Eye Irritant |
| Flam. Liq. | Flammable Liquid |
| hPa | 1 hPa = 100 Pa (Pascal) |
| LC50 | Lethal Concentration, 50% |
| LD50 | Lethal Dose, 50% |
| PBT | Persistent, Bio accumulative and Toxic |
| PNEC | Predicted No-Effect Concentration |
| Ppm | Parts Per Million |
| REACH | Registration, Evaluation, Authorisation and Restrictions of Chemicals |
| STOT | Specific Target Organ Toxicity |
| vPvB | Very Persistent and Very Bio accumulative |
| WEL | Workplace Exposure Limit |

Hazardous and Precautionary Statements in full used in section 2 and 3

Hazard Statements:

Product is not Hazardous, nor classified under EC1272/2008

Precautionary Statements:

P402+404: Store in a dry place. Store in a closed container.

P410+403: Protect from sunlight. Store in a well-ventilated place.

Version 20: 1

Issue Date: 31/03/2021

WE BELIEVE THAT THE INFORMATION CONTAINED HEREIN IS CURRENT AS OF THE DATE OF THIS SAFETY DATA SHEET. IT IS THE USERS OBLIGATION TO DETERMINE CONDITIONS OF SAFE USE OF THIS PRODUCT.
